

CALENDAR FOR BAGLESS DAYS -2025-26

'EACH CHILD MATTERS' **THE CONCEPT OF BAGLESS DAYS**

The concept of introducing Bagless Days, which will be **Ten** in number in an academic year, is a unique way to reduce stress and draw the students' attention towards vocational subjects. Through this initiative the NEP-2020 aims to expose at least 50% of students to vocational education and training. Cases of poor posture and backaches among children have frequently been attributed to heavy school bags. Therefore, the Govt. of India has addressed this concern in the New Education Policy. The goal of the Bagless Days, according to NEP-2020, is to drastically reduce the weight that the kids carry in their bags each day, to and from the school. The YMCA Centenary School & College, being affiliated with the CBSE Board therefore lays emphasis on the fact that a stress - free environment coupled with a happy and healthy child will lead to better learning outcomes, enriching the overall development of the child.

APRIL

DATE/ DAY	CLASSES / SUBJECT	TOPIC
23 rd April (Wednesday)	English
